**F-35 Affordability**

- Lockheed Martin and the Pentagon reached a handshake agreement for the F-35 Lot 12 production contract, with options for Lots 13 and 14.
- In the latest agreement, the F-35 Enterprise has achieved its cost reduction goal of delivering a less than $80 million aircraft in Lot 13, one year earlier than planned.
- The agreement represents an 8.8 percent savings from Lot 11 to Lot 12 F-35As, and an approximate average of 15 percent URF reduction across all three variants from Lot 11 to 14.
- At less than $80 million, the F-35 is a 5th Generation aircraft at equal to or less than the price of legacy 4th Generation aircraft.
